DEPLOYMENT	70

## EDUCATION

Bsc. Mechanical Engineering

University of Ibadan - Ibadan, Nigeria

- CGPA : 3.5 / 4.0
- Cultivated a deep interest in machine learning and data science, with a focus on practical applications.

## WORK EXPERIENCE

### Full Stack Software Developer

Shoprel Marketplace, Oyo(2022-10 - 2023-02)

- I spearheaded the development and launch of a cutting-edge multivendor ecommerce marketplace that connected customers with a diverse range of products and services.
- I leveraged the power of Laravel and Nest JS to create a robust and scalable backend infrastructure that could handle the demands of a growing user base
- I optimized the user experience through the implementation of Next.js for the frontend, utilizing server-side rendering and optimizing for performance and speed

### Front End Software Developer

Africa Strategy Advisers, Lagos (2022-04 - 2022-06)

- Developed a comprehensive Crypto Investment Admin Dashboard using React with TypeScript and polished it with Tailwind CSS.

## INTERESTS

-----

- Machine Learning
- Web Application Security

## SIDE PROJECTS

-----

### **VoterX** ([voterx.vercel.app](https://voterx.vercel.app))

*VoterX is an online platform to conduct elections the easiest way possible.*

- Successfully developed and launched a specialized election-running SaaS platform tailored to the political sector in universities.
- Implemented effective monetization strategies, resulting in revenue growth.
- Led end-to-end product development, ensuring scalability, security, and performance.

### **ChaineX**

*ChaineX offers precise location updates for assets, vehicles, and individuals across various industries.*

- Designed and developed a real-time tracking app during a hackathon, showcasing rapid problem-solving and innovative thinking.
- Leveraged advanced technologies to provide instant and accurate location updates, enhancing operational efficiency.
- Demonstrated the ability to work effectively under pressure and deliver practical, impactful solutions within tight timelines.

- I successfully migrated a multi-page user experience into a single-page app, resulting in a remarkable 38% increase in customer engagement.
- Collaborated closely with design and backend teams to ensure seamless integration of UI components and optimal performance for the Ideas Marketplace app, contributing to an enhanced user experience and efficient data management

## **Full Stack Software Developer**

*Renvisa Homes Ltd, Lagos (2022-04 - 2022-06)*

- Conceptualized, developed, and sustained a dynamic home rental and purchase platform, harnessing Node.js and React TypeScript for frontend prowess.
- Orchestrated seamless data flow via AWS S3 and PostgreSQL, containerizing with Docker, and ensuring top-notch deployment through Heroku.
- Conducted unit and load testing for high profile customer facing applications, which reduced system failure rate by 70%.
